

BLCS Emerging Liquid Crystal Technologies Workshop

13th January

Department of Engineering Science
University of Oxford

We will be holding a one day meeting focused on current and emerging liquid crystal technologies for a range of display and non-display applications.

Speakers include:

- Dr Mark Goebel (R&D Director, Merck UK)
- Dr Ben Broughton (Deputy Manager, Displays and Embedded Systems, Sharp Labs Europe)
- Professor Dirk Broer (Eindhoven University of Technology)
- Professor Kristiaan Neyts (University of Ghent)
- Professor Helen Gleeson (University of Leeds)
- Professor Carl Brown (Nottingham Trent University)
- Professor Cliff Jones (University of Leeds)
- Dr Philip Hands (University of Edinburgh)
- Dr Apala Majumdar (University of Bath)

To register for the Workshop, which is free, please go to:

<http://goo.gl/forms/rdYLJYnRmO>

The day will start at around 10 am and will close around 5 pm.
Lunch and refreshments will be provided.
