

# BLCS Young

# Researchers Meeting

## at Durham University on 11/9/2017

This meeting is a great opportunity for young scientists to network, and present their research in a friendly and informal environment. We hope to see many faces (new and old) there.

We welcome those at all stages in their career to this excellent opportunity to meet the future stars of liquid crystal science.

We are excited to announce that Prof. Helen Gleeson, of Leeds University, will deliver our plenary session. Anyone who has seen Helen speak before knows she is not to be missed.

For any queries please contact the local organiser Sarah at [s.j.gray@durham.ac.uk](mailto:s.j.gray@durham.ac.uk)

We look forward to welcoming you to Durham!
